INDEPENDENT AUDITOR'S REPORT

April 22, 2004

To the Township Board Township of Mancelona

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Township of Mancelona, Antrim County, Michigan as of and for the year ended March 31, 2004, which collectively comprise the Township's basic financial statements, as listed in the table of contents. These financial statements are the responsibility of the Township's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Township of Mancelona, Antrim County, Michigan as of March 31, 2004, and the respective changes in financial position, thereof and for the year then ended in conformity with accounting principles generally accepted in the United States of America.

As described in Note B, the Township has implemented a new financial reporting model, as required by the provisions of GASB Statement No. 34, "Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments", as of March 31, 2004.

The management's discussion and analysis on pages III - V and budgetary comparison information on pages 18 - 23, are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However, we did not audit the information and express no opinion on it.

TOWNSHIP OF MANCELONA

TOWNSHIP OF MANCELONA MANAGEMENT'S DISCUSSION & ANALYSIS YEAR ENDED MARCH 31, 2004

This section of the Township of Mancelona's annual financial report presents our discussion and analysis of the Township's financial performance during the fiscal year ended March 31, 2004. Please read it in conjunction with the financial statements, which immediately follow this section.

FINANCIAL HIGHLIGHTS

Township assets at March 31, 2004, as reported in the Statement of Net Assets, totaled approximately \$2,006,000 for governmental activities. Of the total Township assets, approximately \$928,000 represents capital assets net of depreciation.

Overall revenues were approximately \$797,000 (\$187,000 from program revenues and \$610,000 from general revenues). Overall expenses approximated \$656,000.

The Township did not incur any new debt instruments during the year, nor were there any debt service payments. Long-term debt and capital asset activity is addressed further in a subsequent section of this letter.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of three parts, management's discussion & analysis, the basic financial statements, and required supplementary information. The basic financial statements include two different kinds of statements that present different views of the Township.

The first two statements are government-wide financial statements and provide both long and short-term information about our overall financial status. These statements present the governmental activities of the Township. The Township does not engage in any business-type activities.

The remaining statements are fund financial statements, which focus on individual parts of the Township in more detail.

The notes to the financial statements explain some of the information in the statements and provide more detailed data.

OVERVIEW OF THE FINANCIAL STATEMENTS (CONTINUED)

Required supplementary information further explains and supports the financial statement information with budgetary comparisons.

GOVERNMENT-WIDE FINANCIAL STATEMENTS

The government-wide statements report information about the Township as a whole using accounting methods used by private companies. The Statement of Net Assets includes all of the entity's assets and liabilities. The Statement of Activities records all of the current year revenues and expenses regardless of when received or paid.

The two government-wide statements report net assets and how they have changed. Net assets are the difference between the Township's assets and liabilities; this is one method to measure the Township's financial health or position.

Over time, increases or decreases in an entity's net assets is an indicator of whether financial position is improving or deteriorating.

To assess overall health of an entity, you may also have to consider additional factors such as tax base changes, facility conditions, and personnel changes.

All of the activities of the Township are reported as governmental activities.

FUND FINANCIAL STATEMENTS

The fund financial statements provide more detailed information about the Township's funds, focusing on significant (major) funds, not the Township as a whole. Funds are used to account for specific activities or funding sources. Some funds are required by law or bond covenants. The Township Board also may create them. Funds are established to account for funding and spending of specific financial resources and to show proper expenditure of those resources.

The Township has the following types of funds:

Governmental Funds: All of the Township's activities are included in the governmental fund category. These funds are presented on the modified accrual basis, which is designed to show short-term financial information. You will note that the differences between the Township's government-wide statements and the fund statements are disclosed in reconciling statements to explain the differences between them.

FINANCIAL ANALYSIS OF THE TOWNSHIP AS A WHOLE

Net Assets: The Township's combined net assets increased approximately \$141,000 during the year ended March 31, 2004 totaling \$1,989,769.

The increase is mainly due to conservative fiscal monitoring by the board over virtually all expenditures.

FINANCIAL ANALYSIS OF THE TOWNSHIP AS A WHOLE (CONTINUED)

Governmental Funds: The fund balances for governmental funds increased approximately \$25,500. This increase is much lower than the "net assets" increase because the major renovation to the Township Hall (\$167,716) is deducted as a capital expenditure in the general fund statement, but capitalized in the statement of net assets.

FINANCIAL ANALYSIS OF THE TOWNSHIP'S FUNDS

General Fund: This fund is used to record all activities of the Township not required to be recorded in a separate fund. This would primarily include township administration, ambulance services, and the costs to operate the township hall. The major sources of revenue for the general fund is from the Township tax base and the revenue sharing from the State of Michigan. The major expenses for this fiscal year include the general operating activities of the Township, in addition to the major improvement to the township hall, and ambulance services.

Fire Fund: The Fire Fund is used to account for all activities related to fire protection services. Revenues are derived primarily from property taxes and contractual services to Custer Township, and totaled \$250,827. Fire expenditures totaled \$167,671, of which \$23,276 was spent on equipment purchases. Other major expenditures include wages, repairs and maintenance and insurance.

Road Fund: The Road Fund is used to account for all activities related to road repair and construction. Revenues are derived from property taxes and totaled \$80,134. Expenditures, totaling \$66,492, were paid to repair and pave Scholl, Korr, and Roberts roads.

The Township has the following non-major funds:

Cemetery, Library, and Liquor Law Enforcement. These funds are primarily supported by program revenues, with some assistance from the general fund. Revenues totaled \$66,927 and expenditures totaled \$82,505, with \$28,337 coming from the general fund.

CAPITAL ASSET AND LONG-TERM DEBT ACTIVITY

Capital Assets: Additions to the Township's capital assets include fire equipment in the amount of \$23,276 and the township hall addition of \$167,716.

Long-Term Debt: The Township has no long-term debt.

KNOWN FACTORS AFFECTING FUTURE OPERATIONS

The board, working with the fire chief, has approved the purchase of a new "pumper" fire truck in April of 2004. The cost of the truck is approximately \$320,000, and \$170,000 will be borrowed.

CONTACTING TOWNSHIP MANAGEMENT

This financial report is designed to provide our taxpayers, creditors, investors and customers with a general overview of the Township's finances and to demonstrate the Township's accountability for the revenues it receives. If you have any questions concerning this report please contact Maurice McGleish, Township Clerk or Sue Robinson, Township Treasurer at 202 W. State Street, Mancelona, MI 49659.

NOTE A: ENTITY

The Township of Mancelona is a General Law Township of the State of Michigan located in Antrim County, Michigan. It operates under an elected board and provides service to its residents in many areas including law enforcement, community enrichment, and human services. The criteria established by the GASB for determining the reporting entity includes oversight responsibility, fiscal dependency and whether the financial statements would be misleading if data were not included. Based on these guidelines, there are no other entities which should be considered for inclusion in this report.

NOTE B: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

INTRODUCTION

The accounting and reporting framework and the more significant accounting principles and practices of the Township of Mancelona are discussed in subsequent sections of this Note. The remainder of the Notes are organized to provide explanations including required disclosures of the Township's financial activities.

The accounting policies of the Township of Mancelona conform to the generally accepted accounting principles as applicable to governments. The following is a summary of the more significant policies.

On April 1, 2003, the Township of Mancelona adopted the new governmental reporting model and implemented Governmental Accounting Standards Board (GASB) Statement No. 34 "Basic Financial Statements - and Management's Discussion and Analysis – for State and Local Governments" and Statement No. 38 "Certain Financial Statement Note Disclosures".

Under the provisions of GASB Statements No. 34 and 38, the focus of the Township's financial statements has shifted from a fund focus to a government-wide focus.

GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENT PRESENTATION

Government-Wide Financial Statements

The government-wide financial statements include the Statement of Net Assets and the Statement of Activities. These statements report financial information for the Township as a whole, excluding fiduciary activities. Individual funds are not displayed but the statements distinguish governmental activities, generally supported by taxes and Township general revenues, from business-type activities, generally financed in whole or in part with fees charged to external customers. At this time, the Township has no business-type activities.

NOTE B: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENT PRESENTATION (CONTINUED)

The Statement of Activities reports the expenses of a given function offset by program revenues directly connected with functional programs. A function is an assembly of similar activities and may include portions of a fund or summarize more than one fund to capture the expenses and program revenues associated with a distinct functional activity.

Program revenues include: (1) charges for services which report fees, fines and forfeitures, and other charges to users of the Township's services; (2) operating grants and contributions which finance annual operating activities including restricted investment income; and (3) capital grants and contributions which fund the acquisition, construction, or rehabilitation of capital assets and include fees to developers. These revenues are subject to externally imposed restrictions to these program uses. Taxes and other revenue sources not included as program revenues are reported as general revenues.

Fund Financial Statements

Fund financial statements are provided for governmental, proprietary, and fiduciary funds. Major individual governmental funds are reported in separate columns with composite columns for non-major funds. The measurement focus and basis of accounting for the government-wide and fund financial statements are described in a subsequent section of this note.

FUND TYPES AND MAJOR FUNDS

Governmental Funds

The Township reports the following major governmental funds:

General Fund - This fund is used to account for all financial transactions except those required to be accounted for in another fund. The fund includes the general operating expenditures of the local unit. Revenues are derived primarily from property taxes, State revenue sharing, and other inter-governmental revenues.

Fire Fund – This fund is used to account for all financial transactions related to the Township's fire protection services. Revenues are derived primarily from property taxes and services to Custer Township.

NOTE B: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

FUND TYPES AND MAJOR FUNDS (CONTINUED)

Road Fund – This fund is used to account for all financial transactions related to the Township's road repair/construction. Revenues are derived primarily from property taxes.

The Township reports, in total, the following non-major funds: Cemetery, Library, Liquor Law Enforcement, and Wetzel Lake.

Other Funds

Fiduciary Funds - These funds are used to account for assets held in trust or as an agent for others. Tax collection activities are recorded in this category. Fiduciary activities are not reported in the government-wide financial statements, in accordance with GASB Statement No. 34.

MEASUREMENT FOCUS AND BASIS OF ACCOUNTING

The financial statements of the Township are prepared in accordance with generally accepted accounting principles (GAAP). The Township applies all relevant Governmental Accounting Standards Board (GASB) pronouncements and applicable Financial Accounting Standards Board (FASB) pronouncements and Accounting Principles Board (APB) opinions issued on or before November 30, 1989, unless they conflict with GASB pronouncements. The Township does not apply FASB pronouncements or APB opinions issued after November 30, 1989.

Government-Wide Financial Statements

The government-wide statements report using the economic resources measurement focus and the accrual basis of accounting generally including the reclassification or elimination of internal activity (between or within funds). However, internal eliminations do not include utility services provided to Township departments. Fiduciary fund financial statements also report using this same focus and basis of accounting although internal activity is not eliminated in these statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property tax revenues are recognized in the year for which they are levied while grants are recognized when grantor eligibility requirements are met.

NOTE B: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

MEASUREMENT FOCUS AND BASIS OF ACCOUNTING (CONTINUED)

Governmental Fund Financial Statements

Governmental fund financial statements report using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized when they are both measurable and available.

Available means collectible within the current period or soon enough thereafter to pay current liabilities. The Township considers revenues to be available if they are collected within 60 days of the end of the fiscal year. Expenditures are recorded when the related fund liability is incurred, except for general obligation bond principal and interest which are reported as expenditures in the year due.

Major revenue sources susceptible to accrual include: sales and use taxes, property taxes, franchise taxes (fees), intergovernmental revenues, and investment income. In general, other revenues are recognized when cash is received.

Property tax revenues are recognized as follows:

Properties are assessed as of December 31 and the related property taxes are levied on December 1 of the following year. These taxes are due on February 15; uncollected amounts are subsequently added to the county delinquent tax rolls. A county revolving fund normally pays the balance of the Township's tax levy by May 31 of each year. In accordance with GASB 33 "Accounting and Financial Reporting for Nonexchange Transactions", the Township records the property tax revenue when it becomes an enforceable legal claim for the Township. Therefore, all taxes levied on December 1, 2003, are recorded as revenue in the current year. The Township's taxable value for the 2003 tax year totaled \$82,405,897.

The tax rates for the year ended March 31, 2004, were as follows:

PURPOSE	RATE/ASSESSED VALUATION
General	0.9680 mills per \$1,000
Fire	2.0000 mills special assessment
Roads	0 9875 mills per \$1 000

Roads 0.9875 mills per \$1,000 Ambulance 0.4937 mills per \$1,000

BUDGET

Public Act 621 of 1978 as amended provides that a local unit shall not incur expenditures in excess of the amount appropriated.

NOTE B: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

BUDGET (CONTINUED)

In the body of the financial statements, the Township's actual expenditures and budgeted expenditures for the budgetary funds have been shown on a functional and activity basis. The approved budgets of the Township for these budgetary funds were adopted on an activity level. Budgets as adopted end on March 31 of each year. There are no carryover budget items. During the year ended March 31, 2004, no over-expenditures were noted.

CAPITAL ASSETS AND DEPRECIATION

The Township's property, plant, and equipment, with useful lives of more than one year are stated at historical cost and comprehensively reported in the government-wide financial statements. Donated assets are stated at fair value on the date donated. The Township generally capitalizes assets with historical cost of \$1,000 or more as purchase and construction outlays occur. The costs of normal maintenance and repairs that do not add to the asset value or materially extend useful lives are not capitalized. Capital assets are depreciated using the straight-line method. When capital assets are disposed, the cost and applicable accumulated depreciation are removed from the respective accounts and the resulting gain or loss is recorded in operations.

Estimated useful lives, in years, for depreciable assets are as follows:

Buildings	25 – 40
Improvements, other than buildings	10 – 20
Machinery and equipment	5 – 10
Vehicles	5 – 10
Infrastructure	20 - 40

Land, construction in progress, and library books and periodicals are not depreciated.

With respect to asset improvements, costs over \$1,000 should be capitalized if:

- 1. The estimated life of the asset is extended by more than 25%, or
- 2. The cost results in an increase in the capacity of the asset, or
- 3. The efficiency of the asset is increased by more than 10%, or
- 4. Significantly changes the character of the asset, or
- 5. In the case of streets and roads, if the work done impacts the "base" structure.
- 6. Other wise, the cost should be expensed as repair and maintenance.

For information describing capital assets, see Note E.

NOTE B: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

LONG-TERM DEBT, DEFERRED DEBT EXPENSE, AND BOND DISCOUNTS/PREMIUMS

In the government-wide financial statements, outstanding debt is reported as liabilities. Bond issuance costs, bond discounts or premiums, and the difference between the reacquisition price and the net carrying value of refunded debt are capitalized and amortized over the terms of the respective bonds using a method that approximates the effect of interest method.

The governmental fund financial statements recognize the proceeds of debt and premiums as other financing sources of the current period. Issuance costs are reported as expenditures.

USE OF ESTIMATES

The financial statements have been prepared in conformity with generally accepted accounting principles as applicable to governments and, as much, include amounts based on informed estimates and judgements of management with consideration given to materiality. Actual results could differ from those estimates.

NOTE C: CASH AND INVESTMENTS

Cash consists of bank accounts or securities with original maturities of 90 days or less.

All cash deposits are maintained in financial institutions in Northern Michigan. The Township's deposits are categorized to give an indication of the level of risk assumed by the Township at fiscal year-end. The categories are described as follows:

Category 1 – Insured or collateralized with securities held by the Township or by its agent in the Township's name.

Category 2 – Collateralized with securities held by the pledging financial institution's trust department or agent in the Township's name.

Category 3 – Uncollateralized.

	BANK		CARRYING

NOTE C: CASH AND INVESTMENTS (CONTINUED)

The Governmental Accounting Standards Board Statement No. 3 risk disclosures for the Township's investments are as follows:

- (1) Insured or securities held by the Township or the Township's agent in the Township's name.
- (2) Uninsured with securities held by the counter party's trust department or its agent in the Township's name.
- (3) Uninsured with securities held by the counter party's trust department or agent but not in the Township's name.

Depreciation expense was charged to functions of the Township as follows:

Governmental Activities

Township Administration	n	\$ 10,857
Buildings and Grounds		5,668
Fire		 <u>58,552</u>
	Total	\$ 75,077

NOTE F: LONG-TERM DEBT

As of March 31, 2004, the Township had no long-term debt.

NOTE G: RESERVED FUND BALANCE

The Township has reserved fund balance in the amount of \$63,797 related to perpetual care in the Cemetery Fund (a non-major fund).

NOTE H: RETIREMENT PLAN

The Township has a defined contribution pension plan for its employees. Listed below is a summary of the significant plan provisions adopted by Board resolution in February 1969, and as amended in April, 1996.

A. Eligibility Requirements

- 1. Attained age of 18 and not more than 75.
- 2. No minimum service requirement.
- 3. All employees except volunteer fire fighters and seasonal employees.

B. Contributions

Schedule contributions are based upon participants compensation: 75% funded by the Township, 25% by the employee. A total of seven percent (7%) of employee compensation is contributed.

C. Vesting

1. Contributions are vested to the employee immediately upon entering the plan.

D. Plan Administration

1. The plan is administered by the Township Clerk.

NOTE H: RETIREMENT PLAN (CONTINUED)

During the year of audit, the total employer contributions for the year, was \$6,759. Covered payroll for the year was \$124,220. The plan was funded at the required contribution amount. No pension provision changes occurred during the year that affected the required contributions to be made by the Township or its employees.

NOTE I: CONTINGENCIES

INSURANCE

The Township is exposed to various risks of losses related to torts; theft of, damage to, and destruction of assets; error and omission; injuries to employees; and natural disasters.

The Township participates in the Michigan Township Participating plan, a self insured group. The pool is considered a public entity risk pool. The Township pays annual premiums to the pool for the respective insurance coverage. In the event a pool's total claims and expenses for a policy year exceed the total normal annual premiums for said years, all members of the pool's policy year may be subject to special assessment to make up the deficiency. The pool maintains reinsurance for claims for each occurrence with the overall maximum coverage varying depending on the specific type of coverage of reinsurance. The Township has not been informed of any special assessments being required. There were no significant changes in coverage.
